Memory is defined as the mental capacity of retaining or recalling facts, events, impressions, or previous experiences. This ability in human beings distinguishes them from animal life. Our summer is defined by three legal holidays, Memorial Day, Independence Day, and Labor Day. In between these holidays we refresh ourselves with many pleasurable activities involving the outdoors. These summertime activities implant great memories in us that last a lifetime. We are enriched as individuals by our experiences. These holidays should evoke from us feelings of gratitude and respect for the people who shape our memories. "The Best Things In Life Are The People We Love, The Places We've Been And The memories We've Made Along The Way." This is a true saying found on many greeting cards. The summer holidays should bring gratitude to those who sacrificed for us to enjoy the freedoms and comfort not found in many areas of the world.. At times we take these blessings and the people who provide them for granted. It is a time to reflect on our blessings and the goodness of God who loves us. Christmas, Easter and all religious holydays should be celebrated with joy and gratitude. On Memorial Day what memories do you cherish? How do you want to be remembered? We do not erect monuments to memorialize us. Our lives are judged on the impact we have on others. Have a great MEMORABLE SUMMER!
