"April showers bring May flowers." We are all aware of that quote. Spring time means freshness and new growth after a long, dark winter. Water is necessary for life, health, and growth. During the heat of summer we look for the water that feeds and nourishes growth. The Lenten and Easter Season is filled with references to water in word and rituals. Jesus spoke to the woman at the well of the need for the spring of water that never runs dry. The references to the arid desert brings a desire for the water that refreshes. Jesus refers to himself as the living water that enlivens the soul. The Easter vigil services draw attention to the life giving waters of Baptism that awaken new life and the sacraments which nourish that life. This life must be cared for because it leads to life eternal, our goal. Only faith makes sense of our spiritual path. Jesus is the way, the truth and the life. He has proven the love of God for each of us. It is time to truly get to know Christ Jesus. His love and concern for each one of us is revealed in the Scriptures. His one desire was to reconcile all of creation with the Father. He gave His life that we might live. Read the scriptures and reflect on every aspect of His life and dealing with mankind. Truly He is the Son of God. Never allow His dying for us to be in vain. Live the faith. It is a gift. Don't lose it.
