### Chaplain's Corner

"Memories." A song by this title was once popular and still evokes a lot of sentiment. Remembering is a trait of many family reunions especially when loved ones have passed away. We remember historical events with special days. There is V.J. Day, D Day, Independence Day, Memorial Day, Pear Harbor Day, etc. Persons are remembered on birthdays, anniversaries, Mother's Day, Father's Day, Grandparents Day, Bosses Day, Administrative Assistance Day, etc. Stop and ask yourself how you would want to be remembered.? What would characterize you? Would it be the fortune you gained, the work you did, the monuments erected? For most of us concrete, tangible mementos are not the norm. Love God with all your heart, mind, and soul and love your neighbor. This is the directive of the Lord in the New Covenant. Upon the faithful commitment to this law of love depends salvation. Be known as one who cared. Love one another with the love of Christ in service to one another. This is what St. Paul urged the Corinthians in his famous discourse on love..what it is and what it isn't. Summer is finally here. Refresh your lives with the Season to serve the Lord and one another with new enthusiasm.

## Protect your greatest asset with Income Armor

Income Armor, the newest addition to the Knights of Columbus portfolio, is a disability insurance product. Fundamentally, this product offers monthly payments to the insured to replace income lost when the insured is unable to work due to accident or illness. It is a critical form of insurance that protects your paycheck. Income Armor clearly keeps with the Order's mission: insuring our members and their families against financial risk. Risk of death, yes...risk of inadequate retirement income, yes...risk of catastrophic costs associated with long term care, yes...and now, insurance against the loss of income that a disability would bring.

The first question you may ask yourself is "what are the odds of me becoming disabled and ever needing paycheck protection?" Here's your answer: nearly one in four men can expect to suffer a disability that keeps them out of work for 90 days or longer at some point during their working years. For women, the odds are worse: one in three. And are you ready for this? One in every seven workers can expect to be disabled for five or more years before retirement. Troubling statistics. Basically, if you do not currently own paycheck protection in the form of disability insurance, and you have a job, you need it. Trust me.

Talk to me today about protecting your greatest asset – your ability to earn a living – with Income Armor.
